PROFESSIONAL SUMMARY

I am a Junior WordPress Developer with experience creating, designing and updating websites, including online shopping stores. I can use WordPress, WooCommerce, Elementor, HTML and CSS to build attractive and easy-to-use websites. I also know how to make websites work well on mobile phones and computers. I have a background in Computer Science and have worked on website projects such as FOHA and OTKAFROMART.

My previous work experience has also helped me develop good communication, customer service and team management skills.
